- **DATABASE CREATION USING XAMPP**

The screenshot shows the phpMyAdmin interface for a MySQL database named 'customer'. The left sidebar lists databases like 'customer', 'information\_schema', 'mysql', and 'performance\_schema'. The main area displays the 'customer' table with 5 columns: sno, name, phone, email, and vnum. The table contains 5 rows of data. At the bottom, there are operations like Print, Copy to clipboard, Export, Display chart, and Create view.
